ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Alton:—

I have the honor of presenting my fifteenth annual report as superintendent of the Alton schools. The progress and standards of the Alton schools have kept pace with the best schools in the state. Buildings, teachers and janitors are satisfactory. Outside interests—music, athletics, dramatics, entertainments, and health service commend the schools in a high degree. The yearly demand for the best kind of schools on the part of the people of Alton and their willingness in matters of appro-

priations to make that possible has always been of high credit to the district. I see no lessening of enthusiasm on the part of parents and citizens toward their educational system. May I make my report short this year by calling attention again to my report of last year.

SCHOOL FINANCES

There is no particular change in the cost of schools for this year or the coming year. The School Budget will be ready for the annual meeting, giving as clear a statement as possible of the costs for the present year and the needs for the school year 1928-1929 for which appropriations will be required. The school officials will be glad to answer any questions at any time. During the past year by rigid economy the school board was able to move the agricultural building where it can be heated from the main building. That will save expense in several directions and add efficiency to the school plant. We shall receive a little more state aid next December so that the appropriation for elementary schools may be reduced \$500 or more.

REQUESTS

May I request that parents do all that is possible to prevent absences and tardy marks. Sickness and extreme weather conditions are about the only legitimate excuses.

May I request that many more parents visit schools, get better acquainted with the teachers, and find out more about what the children are really doing in the schools. Teachers will be more than glad to receive helpful suggestions relative to your children and their work in school.

May I request that when unfortunate things happen and have been settled with care and the best judgment possible on the part of teachers, school officials and parents, that the rest of us forget it and not keep the matter in the air to the detriment of the children concerned? Not many of us parents can wisely throw stones at our children for slips in the way of conduct.

May I request that parents must not expect the impossible in matters of personal attention to each student, especially where there are more than 40 in a room. The harder the child has to work for his education, the more time is personal attention given up to the limit. We feel as badly as do parents when children miss a grade.

May I request that parents make the child's interest the first consideration even if a child needs to repeat his grade or sacrifice some good times to make good marks.

May I suggest that where there is dissatisfaction, the first thing to do is to go to school officials, principal, or teachers for the facts and cooperate for the best interests of child and school. The cooperative attitude on the part of all of us will settle nearly every difficulty with satisfaction.

STATISTICS

Below are the usual school statistics for the school year ending June 30, 1927.

Total registration for the school year ending June 30, 1927, was 226; 114 boys, 112 girls. Just a few less than the previous year. The present registration is 236. The average membership was 204; average attendance, 194; per cent of attendance, 95. Number not absent or tardy was 21, a fine showing. There were six tuition pupils in the High School. Number of visits by the school board was 19; by the superintendent, 340; by citizens, 178. Number of school board meetings was 14.

CONCLUSION

I am glad again to express my sincere appreciation of the sacrifice and interest of the people of Alton for their schools, of the efforts of their pupils in their school work, of the hearty cooperation of teachers and school board in the successful operation of the Alton schools.

Respectfully submitted,

F. U. LANDMAN, Superintendent.
Alton, N. H., February 9, 1928.

REPORT OF THE HEADMASTER

To the Superintendent of Schools:

I herewith submit the following report of the Alton High School.

PUPILS

Fifty pupils have registered for the school year 1927-1928.

Class	Number	Boys	Girls
Senior	10	4	6
Junior	11	3	8
Sophomore	17	11	6
Freshman	12	8	4

Six have left school. Two went to work, three moved away, and one dropped out on account of sickness.

Our attendance this year is lowered due largely to the prevalence of colds. Our attendance last year was 97 per cent, which placed Alton High School in the upper group in the state. Pupils should attend every day possible.

CLASSIFICATION

Home Economics	9
Agricultural	11
General	8
Classical	22

The six graduates of last year's senior class have entered higher institutions of learning, all of whom are doing creditable work. This is a good example of what Alton High School is accomplishing.

CURRICULA

Pupils have a choice of classical, general and practical courses.

The Classical Curriculum directs toward college and other higher institutions of learning. It requires scholarship ability and adaptation.

The Home Economics Curriculum has practical courses and is intended for girls who do not expect their school work to extend beyond High School. This group this year takes care of the noon lunches, plans meals and prepares them, serves full course dinners several times during the year.

The Agricultural Curriculum is intended for boys who plan to be farmers. The major part of the work is practical. The agricultural classes last year raised in the greenhouse about 600 boxes of plants. The boys this year won first prize in cattle judging at Hopkinton fair.

For other boys and girls there is the General Curriculum which trains for worthy citizenship in whatever field they may locate.

None but workers will get the full assets of any curriculum.

The principal and teachers will be more than glad to confer with parents in the selection of school courses.

EXTRA—CURRICULA ACTIVITIES

Sports, Rhetoricals, High School Plays, and Music are the chief outside interests of Alton High School and are an essential part of school training.

Basketball is the chief sport. The team is playing strong, clean games. Loyalty, sportsmanship, initiative, clear thinking, and good scholarship are the attributes. Unsatisfactory scholarship debars a boy from representing the school.

Each class presents one Rhetorical year. Two School Plays are given. Once a month each class conducts the morning exercises. Self-command before an audience, ability to think on one's feet and training to interpret orally another's thought are invaluable. Prize speaking might help if someone would furnish the prizes.

CONCLUSION

May I repeat my desire for a close cooperation between parent and teacher. This is only possible by conference and acquaintance with the school work of the pupils. It takes all of the united efforts of us all to make the schools efficient in turning out good citizens to bless the world.

Respectfully submitted,

ORLANDO A. LESTER, Headmaster.
